

JOIN US FOR SURF LIFE SAVING AUSTRALIA'S INNOVATION DAY

Do you want to be part of the latest innovations saving lives on Australia's coast? Join us for Surf Life Saving Australia's Innovation Day, where the future of lifesaving technology, equipment, and systems comes to life. This event is a unique opportunity for manufacturers and companies to showcase their groundbreaking innovations in three key streams:

Technology: SLSA are looking to explore the latest advancements in surveillance systems, communication devices, and AI-powered tools designed to enhance our beach safety operations. We are looking to discover how emerging technologies are reshaping the way we monitor and respond to coastal emergencies.

Powercraft: SLSA are looking to the future of marine safety with our Powercraft stream. We envisage demonstrations of advanced rescue boats, jet skis, and other watercraft engineered for peak performance and reliability whilst also looking to the future with renewable technologies. We are looking to learn about the latest innovations in design and functionality that are transforming rescue missions on the water.

Medical: We are looking to see first hand the revolutionary medical equipment and systems designed to improve response times and treatment efficacy in emergency situations. From cutting-edge first aid gear to new life-saving medical devices, we would like to explore how advancements in medical technology are enhancing the effectiveness of our lifesavers on the front line.

Event Date: 9 November 2024

Location: Wanda Surf Life Saving Club, Sydney, Australia
