

QUICK GUIDE: ENROLLING IN PROFICIENCIES ON THE SLS MEMBERS HUB

Essential Steps for Theory & Practical Sessions

Introduction

Each season, Surf Life Saving members must update and enrol in their proficiencies in order to keep their awards current. Comprising an online theory and a practical session, this year, online learning and enrolment are on the new SLS Members Hub, replacing the old Members Area.

What's New?

- Simpler design and login
- Central dashboard for qualifications and events
- Easy access to online learning and practical session bookings

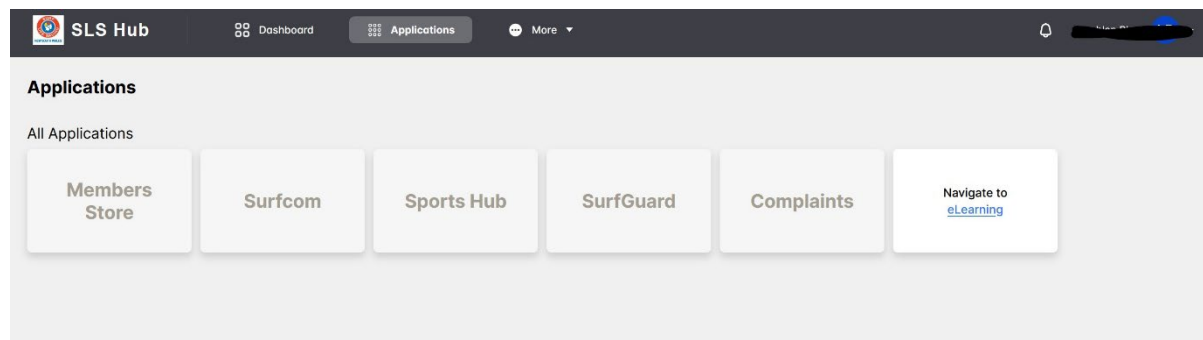

How to Enrol

1. Access the Members Hub

- Go to the SLS Members Hub website (URL from your club)- <https://hub.sls.com.au/dashboard>
- Log in with your Surf Life Saving username and password- this has been carried over from the old SLS Members Area; however, 2FA is now required in most cases when using the Members Hub for the first couple of times.

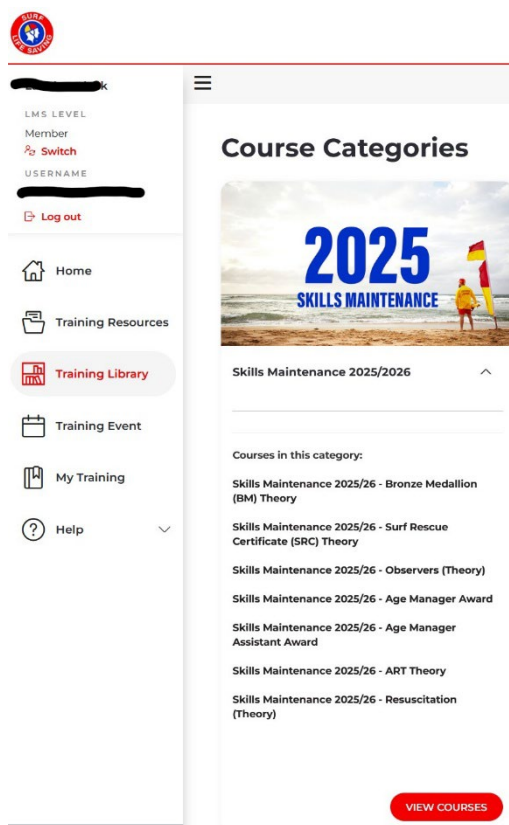

2. Locate eLearning.

- On your dashboard, Select Applications.
- Navigate to eLearning

3. Complete Online Theory

- Good news is the eLearning Platform has been carried over
- Navigate to 'Training Library' and find Skills Maintenance
- Start the course/s and complete all online modules required for each award you have.
- Your progress saves automatically- to resume head to the 'My Training Tab'

4. Attend a Practical Session

- Please refer to the Wanda proficiency calendar on the website and on noticeboards for details. Note: this is an evolving document so please keep checking.
- Once the session has been completed and all components marked off your award will be updated.

Tips & Troubleshooting

- Use "Forgot Password" if you can't log in
- First time users of the 'Members Hub' will require 2FA.
- Complete online theory before booking practical- if not completed you will need to attend a different session.
